PROFILE

Leveraging my 6+ years of practical expertise in analytics and strategy, I have successfully evolved from a Data Analyst to a Data Scientist integrating machine learning models. My diverse background as an ML generalist incorporates the ability to create insightful representations, possess statistical expertise, handle automation and data preprocessing, as well of deep learning models

EXPERTISE

- R
- Python
- Java
- SQL
- VBA
- Tableau
- Power BI
- Excel
- Machine Learning
- Deep Learning
- Creativity

LANGUAGES

SPANISH

ENGLISH

FRENCH (BASIC)

EXPERIENCES

• Marsh McLennan | Mar 2022 - Present

Data Scientist

Developing and constructing robust ML models, while also deploying dependable ML pipelines in production environments.

Skills: Fast API, Docker, Git, DVC, VS Code, Azure.

• GetIn | Oct 2019 - Mar 2022

Data Analyst

Role involves analyzing trends within the retail industry. Creating and automating stakeholder analysis. Also generating forecasts and visualizations to optimize strategies for success.

Skills: R, Excel, Tableau, Stakeholder Presentations.

• Metlife |Back Office Finance Trainee | Feb 2018 - Jun 2019

EDUCATION

Artificial Intelligence Professional Program | 2023
(In Progress)

Stanford University

- Natural Language Processing with Deep Learning, Graph Neural Networks, Multi-Task and Meta-Learning Algorithms

Data Science and Machine Learning | 2021

ITAM

- Supervised and UnSupervised Models, DeepLearning.

B.A.Sc Actuarial Science | 2015 - 2019

ITAM

- ARIMAX Time Series Thesis Degree

ACHIEVEMENTS

3x Triathlons Completed

Iztaccihuatl Summit, 5,215 m (17,160 ft) mountain in Mexico

4x Half Marathons Completed
